

A RACE WAR IN THE CHURCH.

ITALIAN AND ENGLISH SPEAKING CATHOLICS IN HARLEM AT ODDS.

Father Carmody, it is said, had to leave because Italian Bibles like him—A Pious to Drum Him Out of the Parish—Father Carmody, Irish Priest, Assailed.

The Rev. Michael Carmody until a month ago was pastor of the Catholic Church in Our Lady of Mount Carmel in East 115th street. He sailed for London a week later. His departure, it is said, was the result of a strong jealousy between the Italians, who form the majority of the congregation, and their English-speaking fellow members. His feeling has increased since Father Carmody left. It has already resulted in an assault on Father Banks, the only Irish priest now connected with the parish. His assailant was Antonio Petrucci, and he has thus far escaped punishment, although many threats have been made against him.

Petrucci has a saloon at 110th street and First avenue. He was arrested once for stabbing a relative. He has some influence among his countrymen, and took an active part in the affairs of the church. The parish extends from 112th to 116th street, and the second ward, and the Italian colony, which is the heart of the district, makes it the most populous parish of its size in Harlem.

Father Carmody was appointed pastor about four years ago, to succeed Father Kirner, who had been killed by the walls of a new school falling on him. He was succeeded by the erection of the building. At the time of Father Carmody's appointment a large number of the parishioners were Irish by birth or descent, but the majority were Italians. Father Carmody was an Irishman, and he was greeted warmly by the English-speaking members of the church. Many of the Italian members, however, disliked him quite as well as his fellow countrymen.

Father Carmody found it a hard task to unite the conflicting elements in the church. With the increase of the Italian population the celebration of the feast of Our Lady of Mount Carmel, which was the principal event with the Italians, grew in importance, not only to the Italians, but as a source of revenue to the church. The story is told that three years ago the celebration brought in \$1,000 to the Italian community. There was an unusual day in banqueting the church, and a week or more elapsed before Father Carmody could bring about a final meeting of the committee. As the story goes, there was a great deal of talk, and much was said on the part of the committee, resulting in an extraordinarily long list of expenses for music and decorations. The total bill for the church was only \$30, which Father Carmody, with some indignation, refused to accept. The committee, however, was not to be deterred at length, and the church was decorated with the usual decorations of the feast. The feeling was further intensified by the arrival of the Sisters to teach in the parochial school attached to the church. Father Carmody's attitude toward the Sisters was not only hostile, but he refused to allow them to teach in the school, and that the English-speaking children should be taught in the school. Father Carmody's attitude toward the Sisters was not only hostile, but he refused to allow them to teach in the school, and that the English-speaking children should be taught in the school.
